

ELEMENTARY PROGRAM

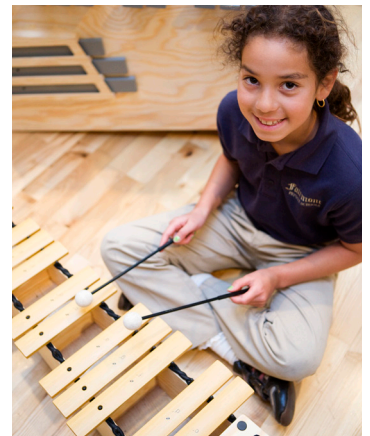

Beginning in Kindergarten, and continuing through the 5th grade, Fairmont's dynamic teachers create a homeroom environment where children master the basics of language arts, mathematics, social studies and science.

Fairmont's commitment to personalized instruction is evident through our use of differentiated instruction with small reading groups and math centers. Our incorporation of the Write Source, Accelerated Math and Accelerating Reader programs enhances the learning process for each individual student.

Fairmont elementary students also benefit from a variety of resources on campus such as three Technology Education Centers, Music Studio, newly remodeled and expansive library, theater, half-court gymnasium and two athletic fields. Academics are supported and enhanced each week by several enrichment classes taught by specialty teachers as outlined below.

SPECIALTY CLASSES/LABS

Physical Education	Four times per week
Library	Weekly
Music	Twice per week
Art	Weekly
Spanish	Twice per week
Science Lab	Weekly
Computer Lab	Twice per week
