

JUNIOR HIGH PROGRAM

FAIRMONT MABLE CAMPUS

Junior high students at Fairmont's Mable campus benefit from seamless 7th through 8th grade preparation for high school.

Whether students begin their Fairmont education in the 7th grade or have attended private school for several years, our junior high program ensures high school readiness for all students.

Fairmont believes that preparation for high school involves much more than academics. Our junior high program teaches students the organizational and study skills necessary for success in higher grade levels. During travel week, students learn through experiencing unique histories and cultures. These trips are organized and chaperoned by faculty members.

Fairmont is committed to ensuring a safe and secure environment for students to continue character, confidence and social development. Junior high students rotate through a variety of classes throughout the school day:

- Math and Advanced Math
- English & Honors English
- Literature & Honors Literature
- Physical Education
- Science (Lecture & Lab)
- History
- World Language
- Electives: Art, Music, Computer Science, Robotics, Drama and Journalism
- Extracurricular After-School Activities: Leadership, Yearbook, and Speech & Debate.

ADVANCED MATH PROGRAM

Fairmont offers an elite mathematics program that is among the top educational programs in the country. Beginning in Fairmont's 6th grade program and continuing through high school, the advanced math track provides a highly individualized approach to math education, allowing students of all abilities to receive the customized instruction they need to achieve at their highest potential in high school courses and on important college entrance exams.

Students who continue through Fairmont Preparatory Academy's advanced math program can earn up to 19 units of college math credit just by passing their high school classes! Below is a table that illustrates course options offered at each junior high grade level:

	Grade 7	Grade 8
Option A	Math 7	Pre-Algebra
Option B	Pre Algebra	Algebra
Option C	Algebra	Geometry/Algebra II
Option D	Geometry	Algebra II/ Trigonometry

Summer courses can be taken for additional advancement.
